#1 'Start Picking' Demo

Overview: In this demo, you act as a warehouse worker picking items from bin locations and placing them into totes for customer orders.

1. You are given a list of Bin locations(**A-F**) where picking is needed
2. Enter bin location you are going to(EX: **A**)
3. Afterwards, you are prompted to go to the Zone location(EX: **A101**)
4. You will register a valid Tote name(**F7**)
 - a. Valid Tote Names(**GREY_TOTE_100 - GREY_TOTE_150**)
5. Once you've registered the tote, you will enter the product number on top of screen
6. If multiple number of products are required, pressing **F5** allows you to change the quantity
7. Pressing Enter will confirm your input
8. End of "**Start Picking**"

Note: Since this is a Demo, no noticeable changes will occur on your screen.

#2 'Stage Items' Demo

Overview: You will start moving products from the totes(previous demo) to their Stage locations. You will make sure the product along with the correct of quantity are moved

1. Enter Tote name.
 - a. You can use **GREY_TOTE_101** for this Demo.
2. You will then be asked to put in the product's number.
 - a. Some valid product numbers(**2,3,4,6**) for **GREY_TOTE_101**
3. You will be prompted to scan these products to a Stage zone
 - a. Valid inputs (**STAGE_001-STAGE_050**)
4. Pressing **F5** allows you the change the quantity
5. By pressing Enter, you have moved the product to their Stage location.
6. End of "Stage Items" Demo

Note: Since this is a Demo, there won't be any changes.

#3 'Gather Order Parts' Demo

Overview: In this part, you are required to collect all products from their Stage location to complete customer order.

1. You will get a view of Order Numbers on your screen.
2. Navigate through the order list by pressing your function keys.
3. Enter the order number on top of the screen.
4. You will be prompted to enter an empty Tote's name
 - a. You can use **ORDER_TOTE_00500**
 - b. Several options (**ORDER_TOTE_00001 - ORDER_TOTE_00500**)
5. You will directed to the Stage locations (**EX: STAGE_001**)
6. You will scan the Product number and total quantity for it.
7. Pressing Enter will register you input
8. You'll be prompted to go to the next Stage location
9. You'll be finished once you are booted to the "Orders Ready List" view
10. End of Demo

Note: For Demo users, you will be stuck on first Product of the customer order
